GOVERNMENT OF BENGAL, FINANCIAL DEPARTMENT.

NOTICE TO MARINERS—(No. 4).

BAY OF BENGAL—BURMA COAST.

COAST OF TENASSERIM.

MERGUI ARCHIPELAGO.

Dangerous rocks on the beaten track.

THE Officer in charge of the Marine Survey of India has given notice in reference to searches having been made of the position and existence of the undermentioned rocks lying in the fairway track through the Mergui Archipelago:—

Peterson rock.—This rock, which dries at low-water spring tides, is described as a pinnacle, lying one mile N.-W. of West Passage Island on the N.-E. side of Lord William Bentinck Island.

Warning rock.—Is situated in the same locality, but a little to the northward of Lord William Bentinck Island, and was found to lie half a mile east of its charted position; there being no dangers off the east side of West Passage Island.

Fly rock.—A very dangerous rocky pinnacle about 30 feet in extent, with perpendicular sides, is swash at low-water spring tides; but it seldom makes any ripple in the fine season. It lies with the following bearings and distances:—

West extreme of Bushby Island	South, distant 6 miles.
S.-E. point of Lord William Bentinck Island	N. $\frac{1}{2}$ W., distant $7\frac{1}{2}$ miles.
Fly islet (40 feet high, small)	S.-E. by E., distant $2\frac{1}{2}$ miles.

Note.—To clear this danger, mariners are cautioned to keep the S.-E. point of Lord William Bentinck Island touching the west side of South Passage Island (east side of Lord William Bentinck Island), which line leads one mile west of it; or keep the father and son (west side of Sir Edward Owen's Island), showing to westward of the conical rock immediately off Bushby Island; or especially during thick weather the whole of the conical rock properly open of Bushby Island, will clear the *Fly rock* by half a mile to westward.

A shoal off High Island.—The shoal reported three miles N. N.-E. of High island (N.-E. side of Sullivan's Island or Lampee) was not found; depths of twenty fathoms were obtained everywhere for a mile round the position assigned, and overfalls and tide-rips being numerous north of High Island.

A rock.—This danger, which is situated in the east side of the Forrest's Strait, and dries at low-water spring tides, lies a quarter of a mile north of Canister rock.

Marble rock.—Reported to exist $2\frac{1}{2}$ miles N. N.-W. $\frac{1}{4}$ W. from the northern island of The Gregorys Group, was searched for in vain, although drags were used extensively over the vicinity. A coral patch, with the least depth of one fathom at low-water spring tides, was, however, found $1\frac{1}{2}$ miles N. $\frac{1}{2}$ E. of the Northern Island of The Gregorys, and which is considered probably to be the same danger.

Boyce shoal.—An unsuccessful search was made for the reported danger stated to lie about 2 miles east of the main body of The Gregorys; the existence of the shoal, therefore, must be considered very doubtful.

Kurrachee rock.—A small pinnacle rock, standing in 16 fathoms, and dries 5 feet at low-water spring tides, lies with the followings bearings and distances:—

Red point (on the main land) E. $\frac{1}{2}$ N., distant $4\frac{1}{2}$ miles.
Turret Island S.-E. by S., distant $7\frac{1}{2}$ miles.
South point of the biggest island of The Gregorys W. by N. $\frac{1}{2}$ N., distant $1\frac{1}{2}$ miles.
South island of The Gregorys S.-W. $\frac{1}{4}$ W., distant $2\frac{1}{2}$ miles.

Note.—A rock has been placed one mile N. N.-E. of the above position, but it does not exist, and should be expunged from the admiralty charts.

Directions—Western Channel.—The channel west of The Gregorys in Forrest's Strait is not recommended until a larger scale chart is published. *Eastern Channel.*—Mariners, when proceeding through, should keep in mid-channel between The Gregorys and the

main land bearing in mind that Sir Robert Campbell's reef, which lies $3\frac{1}{2}$ miles south of Canister Island, covers at high-water; this track, therefore, leads through in $3\frac{1}{2}$ to $4\frac{1}{2}$ fathoms at low-water. It is high-water full and change at 10h. 30m., and the average rise of springs is 18 to 16 feet more than the above depth; and a vessel by keeping in soundings under 10 fathoms at any time of tide will be well clear of the Kurrachee rock.

The bearings are magnetic.

Offg. Chief Secy. to the Govt. of Bengal.

[Third Publication.]
NOTIFICATION.

The 31st December 1886.—It is hereby notified for general information that in the exercise of the powers conferred on him by section 4 of Act III (B.C.) of 1879 (entitled an Act to provide for the periodical inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah), the Lieutenant-Governor proposes to approve of the following draft of a revised set of rules framed by the Commissioners for the inspection of steam-boilers, unless good reasons are shown to the contrary within one month of the publication of this notification.

COLMAN MACAULAY,

Offg. Chief Secy. to the Govt. of Bengal.

Rules under Section 4, Act III (B.C.) of 1879, entitled an Act to provide for the Periodical Inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah.

I.—The office of the Commissioners, for the Inspection of Boilers shall be attached to the office of the Commissioner of Police.

II.—A Boiler Commission shall be appointed to consist of the Commissioner of Police, or the Deputy Commissioner of Police or both, and not less than three other Commissioners to be appointed by Government from time to time; and it shall meet periodically (at least once a month) to arrange for the transaction of business, and one of the Commissioners shall be appointed President.

III.—It shall be the duty of the Commissioners at the monthly meetings—

(1) To examine the diaries of the Inspector and Assistant Inspectors, and pass such orders thereon as may seem necessary.

(2) To revoke or suspend any certificates under section 8.

(3) To hear any appeals preferred by owners of boilers under section 9.

(4) To keep a record of their proceedings in such form as may seem advisable, and submit a copy of the same to the Secretary to Government.

(5) To submit an annual budget to Government, showing the estimates, receipts, and disbursements of the Commission for the ensuing year.

(6) To submit an annual report reviewing the work done by the Boiler establishment during the year.

(7) To prescribe the registers and accounts which are to be kept up by the Secretary and office.

(8) To cause a statement of demands, collections, and outstandings to be prepared by the Secretary, and to scrutinise the same.

(9) To check the statement of demands, comparing the arrear demand with the statement of outstandings for the previous month, and the current demand with a statement of work done, to be prepared by the Secretary from the diaries of the Inspectors.

(10) To compare the statement of collections with the cash-book, and the cash-book with the Bank-book.

(11) To pass such orders as they may think fit for realising or otherwise disposing of the outstandings.

IV.—The Commissioners shall from time to time prepare and submit for the sanction of Government a schedule of the establishment and salaries they consider necessary for the purposes of this Act.

V.—After sanction of such schedule, the Commissioners shall have the power to appoint the Inspector, Assistant Inspectors and clerks, &c., and they shall also have power to suspend or remove such officers. The Inspector shall also be Secretary to the Commission, and he shall attend the office and keep such registers and accounts as the Commission may direct under rule III.

VI.—The Secretary shall be the head of the branch of the office of the Commissioner of Police, which is set apart for the work of the Boiler Commission, and shall be responsible to the Commissioner or Deputy Commissioner of Police for the good order and management of the office. He shall see that all notices are duly served, and that all fees are duly brought to account and paid into the Bank. He shall keep in his own custody all forms of certificates, declarations, check receipts, and vouchers. He shall himself verify the balance at credit, shown in the accounts of the Commissioners' office, with the balance in the Bank. He shall refer all matters of importance for the orders of the President.

VII.—Notices under section 6, requiring owners or persons in charge of boilers to make alterations or additions, shall only be given by the Inspector, and when any such notice is given, a copy of the notice served shall at the same time be forwarded by him to each member of the Boiler Commission. When an appeal is heard by the Commission, notice shall be given to the appellant, and any representation that may be made by him will be heard in the presence of the Inspector. The Inspector will also be heard, and local inspection made if necessary. The decision of the Commission will be given in writing, and such decision shall be final.

VIII.—When an inspection under the Act is completed, the Inspector making it shall forthwith, if satisfied that he can with propriety do so, give the owner, manager or agent of the steam boiler inspected a declaration in the form appended hereto.

IX.—The owner, manager or agent to whom a declaration is given under the last foregoing section shall, within fourteen days after the date of the receipt thereof, send the declaration, together with the amount of the fee named at foot thereof, to the office of the Commissioner of Police.

If he fails to do so, he shall forfeit a sum not exceeding five rupees for every day beyond that period, and the owner, manager or agent shall pay the sum so forfeited on the delivery of the certificate of inspection in addition to the fee payable for the certificate.

X.—Upon receipt of the declaration in the office of the Commissioner of Police, the Secretary shall prepare a certificate in the form prescribed by the Act. Such certificate shall be signed by the Secretary and the Commissioner of Police or Deputy Commissioner of Police, and

shall be delivered to the owner, manager or agent of the steam boilers inspected, on his paying the fees and other sums (if any) payable under rule IX on delivery of a certificate.

XI.—The declaration given shall have the effect of a certificate for 30 days from the date of inspection under rule VIII, but no longer; and unless the fees and other demands are paid and the certificate taken out within that period, the owner, manager or agent shall be liable to all the penalties prescribed in the Act for using an uncertificated boiler. Provided that, if the boiler is worked under a declaration for any period less than 30 days, the owner, manager, and agent shall nevertheless be liable to pay the same fee as if he had taken out a certificate.

XII.—For every certificate of inspection granted under this Act, the owner, manager or agent of the steam boiler inspected shall pay to the Commissioner of Police a fee calculated on the horse-power of the steam boiler according to the scale laid down in rule XVII; and such additional fee, in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XVIII.

XIII.—A certificate granted under this Act shall not be in force—

(1) After the expiration of one year from the date thereof, or

(2) After the expiration of the period, if less than one year, for which the boiler and machinery have been stated in the certificate to be sufficient, or

(3) After notice has been given by the Commissioners to the owner, manager or agent of the steam boiler to which the certificate relates that they have cancelled or suspended it.

XIV.—There shall be two kinds of inspection of boilers—

(a)—A thorough examination once every twelve months, inside and outside, to be made by the Inspector or Assistant Inspector in person, for which purpose the boilers must be empty, cool, and clean, and flues swept; and if required by the Inspector, any parts or settings

removed for a complete examination of the boiler in every part.

(b)—An ordinary inspection made at any time when the Inspector has reason to believe the boiler is being improperly worked or that the person in charge is not competent.

XV.—The Inspector shall give one week's notice of every such intended thorough examination; and if after that notice the boilers are not empty, cool, clean, and ready for inspection on the date named, the Inspector shall prohibit the boilers from working, and shall report the case to the Commissioners. Further, if any request be made to remove fittings or settings, and such be not complied with, the Inspector shall in like manner stop the working of the boilers.

XVI.—The Inspector shall submit to the Commissioners at each meeting his report on every boiler inspected in the form of a diary which shall be recorded in the office.

XVII.—Fees for the delivery of certificates shall be charged according to the following scale:—

	Rs.
Boilers under 10 H.-P. ...	16
„ above 10 „ and under 20 H.-P. ...	20
„ „ 20 „ „ 40 „ ...	25
„ „ 40 „ „ 60 „ ...	30
„ „ 60 „ „ 80 „ ...	35
„ „ 80 „ „ 100 „ ...	40
„ „ 100 „ and upwards ...	50

Formula for calculating horse-power.

For tubular and internally fired boilers, area of grate multiplied by two = H.-P.

For egg-ended and externally fired boilers, area of grate multiplied by one and a-half = H.-P.

XVIII.—In addition to the above fees a charge to cover the travelling expenses of the Inspector will be made in the case of all boilers or prime-movers situated outside the town of Calcutta. The charge for such inspection will be calculated according to the distance from Government House to the place where the boiler is situated and back again, and will be at the rate of six annas a mile by road and two annas a mile by rail.

NOTICE TO MARINERS—(No. 5).

BAY OF BENGAL.

BURMA COAST.

COAST OF ARAKAN.

(1) *Reported incorrect position of shoal southward of Sandoway Anchorage.*

THE Officer in charge of the Marine Survey of India has reported that the 4-fathom shoal lying 20 miles S. by W. of Sandoway anchorage is incorrectly placed on the published charts of that coast.

The shoal—which has a depth of only 10 feet over it at low-water spring tides, and composed of large stones—is reported as being distant $1\frac{1}{2}$ miles S. by E. $\frac{1}{2}$ E. of the position at present assigned.

Position—Latitude $18^{\circ} 14' N.$; longitude $94^{\circ} 03' 45'' E.$ (Madras observatory being in longitude $80^{\circ} 14' 51''$ East of Greenwich.)

Note.—Mariners should navigate this part of the coast with extreme caution.

RAMREE HARBOUR.

(2) *Beacon on Dragon shoal.*

Information has been received that a beacon has been erected to indicate the harbour entrance near the northern end of Dragon shoal, one cable N.N.E. of the large white rock, Ramree harbour.

This *beacon*—which consists of an *iron tripod*, carrying a *drum* and painted *red*—was intended to have been placed on Flat Reef, which is a large bank of boulders separated from the Dragon shoal by deep water.

Note.—Further notice will be given when the beacon is shifted to its right position.

CHEDUBA STRAIT.

(3) *Buoys and beacons off North side of Cheduba Island.*

Also, with reference to this Department Notice to Mariners, No. 58, of 21st October 1886, on the breaking adrift of the *Central Shoal buoy*, northern approach to the Cheduba Strait:—

Further notice has been given that the *buoy* painted *red*, and surmounted with a *staff* and *basket*, has been replaced on the northern edge of the Central Shoal, North side of the Fairway, in 3 fathoms at low-water spring tides, and lies with the following bearings and distances:—

Rocky Point beacon	...	N. W. distant $3\frac{1}{2}$ miles.
Dark hill (wooded)	...	N. $\frac{1}{2}$ E. „ $2\frac{1}{2}$ „
Old beacon (on next point)	...	N. E. $\frac{1}{2}$ N. „ 1 mile (nearly.)

As a guide to vessels approaching the Cheduba Strait from the northward, and in order to distinguish *Beacon island* from the other islands, a *small beacon* has been erected on the summit off the East end of Beacon island, N. W. side of Cheduba island.

Note.—Steam-ships approaching from the northward may steer direct for the Central Shoal buoy on a bearing E. $\frac{3}{4}$ S. in line with the highest summit of the Ramree hills, then pass 2 cables to the South of it, and keep it just open of Rocky point until the leading mark for hauling to the southward comes on, *viz.*, the Dark wooded hill bearing N. N. W. $\frac{1}{4}$ W.

The *beacons*, on Rocky point and on the West side of the next point to the eastward, are 30 feet high, constructed of *poles* with *baskets*, and are painted *white*.

The bearings are magnetic.

Directions of the Tidal Streams.

INFORMATION has been received from the Officer in charge of the Marine Survey of India that from observations taken on board the Indian Marine Surveying steamer *Investigator* in January 1887, on a line between the China Ba-keer light-house and Kalegouk island, the direction of the streams were found to be always to or from the centre of the Salwin or Maulmain river, there being no circular set. At springs there was a slack water of half an hour corresponding in time to the high and low water times at Amherst (entrance to Maulmain river—*see* tide tables), and the maximum current, flood or ebb, was $3\frac{1}{2}$ knots, which is probably exceeded in the wet season.

NOTIFICATION.

The 27th January 1887.—Moulvie Fazlul Karim, Sub-divisional Officer of Netrakona, in the district of Mymensingh, is appointed to be a Settlement Officer, under rule 1, chapter VI of the rules made by the Local Government under the Bengal Tenancy Act, in estate No. 125, pergunnah Raydome, in that district.

P. NOLAN,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 1st February 1887.—Mr. Robert B. Smart, Surveyor, fourth grade, is, under section 4 of the Bengal Survey Act V of 1875, appointed to be an Assistant Superintendent of Survey for the purpose of carrying out a survey of the Angul Estate in the Tributary Mehals of Cuttack.

P. NOLAN,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATIONS.

The 2nd February 1887.—The Lieutenant-Governor of the Lower Provinces of Bengal is pleased to direct, under section 45 of the Indian Forest Act (VII of 1878), that the river Gunduck and its tributaries, so far as they flow within his jurisdiction in the Chumparun district, or along its borders, are areas within which all unmarked wood and timber, and all wood and timber on which the marks have been obliterated, or defaced, by fire or otherwise, are deemed to be the property of Government, unless or until any person establishes his right and title thereto under the provisions of the said Act and the rules made under it.

The Lieutenant-Governor approves the following rules with regard to the collection of drift timber in the Gunduck River and its tributaries, in the Chumparun district:—

Drift Timber Rules for the River Gunduck and its tributaries so far as they flow in or along the boundaries of the Chumparun District, within the jurisdiction of the Lieutenant-Governor of Bengal, made under section 51 of the Indian Forest Act.

1. *Drift timber may be salvaged by any person.*—All pieces of unmarked wood or timber, and all pieces on which marks have been obliterated or defaced by fire, or otherwise found adrift, beached, stranded, or sunk in or on the banks of the river Gunduck and its tributaries, may be salvaged by any person.

2. *Report to be made when wood or timber is salvaged.*—The salvor shall intimate the fact that he has salvaged wood or timber to the Forest Officer, or to such Police or other officer or subordinate as the Forest Officer may from time to time direct to receive such reports.

3. *Salvage fees.*—Any such person who shall have salvaged wood or timber under these rules shall be entitled to receive as salvage fees—

(a) in the case of wood or timber, the ownership of which is proved and admitted under section 47 of the Indian Forest Act—from the owner, through the Forest Officer, 50 per cent. of the value thereof, as adjudged by the Forest Officer;

(b) in the case of wood or timber that becomes vested in Government, under section 48 of the Indian Forest Act—from Government, 50 per cent. of the net balance of the sale account of the said wood or timber after deducting therefrom all expenses of transport and other charges (if any): such salvage fees to be paid after the sale has been effected.

4. *Payments required when drift timber is shown to be the property of a claimant.*—No such wood or timber shall be delivered to any claimant who (under section 47 of the Indian Forest Act) has been recognized to be the owner until, under section 50 of the said Act, he shall have paid to the Forest Officer 50 per cent. of its value as adjudged by that officer, together with such other expenses as may have been incurred in salvaging the said wood or timber. Should the recognized owner fail to make these payments within 10 days of his receiving intimation from the Forest Officer of the amount due, the property salvaged shall be dealt with (under section 48 of the Act) as unclaimed timber.

5. *Salved timber which may become vested in Government to be sold to the best advantage.*—All drift and stranded wood and timber salved under these rules, which may become vested in Government under section 48 of the Indian Forest Act, shall be sold to the best advantage after two months from the expiry of the period fixed for the disposal of claims under section 46 of the said Act.

6. *Penalty clause.*—Any person who shall infringe any of the provisions of these rules shall be punished with imprisonment which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

The Lieutenant-Governor is pleased, under section 2 of the Indian Forest Act, to vest the Collector of the Chumparun district and the Sub-divisional Officer of Bettiah with the powers of Forest Officers for the purpose of carrying out the rules made under section 51 of the said Act for the salving, collection, and disposal of drift and stranded wood and timber on the river Gunduck and its tributaries, so far as they flow within his jurisdiction in or along the borders of the Chumparun district.

NOTICE TO MARINERS—(No. 4).

BAY OF BENGAL—BURMA COAST.

COAST OF TENASSERIM.

MERGUI ARCHIPELAGO.

Dangerous rocks on the beaten track.

THE Officer in charge of the Marine Survey of India has given notice in reference to searches having been made of the position and existence of the undermentioned rocks lying in the fairway track through the Mergui Archipelago:—

Peterson rock.—This rock, which dries at low-water spring tides, is described as a pinnacle, lying one mile N. W. of West Passage Island on the N. E. side of Lord William Bentinck Island.

Warning rock—Is situated in the same locality, but a little to the northward of Lord William Bentinck Island, and was found to lie half a mile East of its charted position; there being no dangers off the East side of West Passage Island.

Fly rock—A very dangerous rocky pinnacle about 30 feet in extent, with perpendicular sides, is awash at low-water spring tides; but it seldom makes any ripple in the fine season. It lies with the following bearings and distances :—

West extreme of Bushby Island	South, distant 6 miles.
S. E. point of Lord William Bentinck Island...	N. $\frac{1}{2}$ W.,	" 7 $\frac{1}{2}$ "
Fly islet (40 feet high, small)	S. E. by E., " 2 $\frac{1}{2}$ "

Note.—To clear this danger, Mariners are cautioned to keep the S. E. point of Lord William Bentinck Island touching the West side of South Passage Island (East side of Lord William Bentinck Island), which line leads one mile West of it; or keep the Father and Son (West side of Sir Edward Owen's Island), showing to westward of the *conical rock* immediately off Bushby Island; or especially during thick weather the whole of the *conical rock* properly open of Bushby Island, will clear the *Fly rock* by half a mile to westward.

A shoal off High Island.—The shoal reported three miles N. N. E. of High island (N. E. side of Sullivan's Island or Lampee) was not found; depths of 20 fathoms were obtained everywhere for a mile round the position assigned, and overfalls and tide-rips being numerous North of High Island.

A rock.—This danger, which is situated in the East side of the Forrest's Strait, and dries at low-water spring tides, lies a quarter of a mile North of Canister rock.

Marble rock.—Reported to exist 2 $\frac{1}{2}$ miles N. N. W. $\frac{1}{2}$ W. from the northern island of The Gregorys Group, was searched for in vain, although drags were used extensively over the vicinity. A *coral patch*, with the least depth of one fathom at low-water spring tides, was, however, found 1 $\frac{1}{2}$ miles N. $\frac{1}{2}$ E. of the northern island of The Gregorys, and which is considered probably to be the same danger.

Boyce shoal.—An unsuccessful search was made for the reported danger stated to lie about 2 miles East of the main body of The Gregorys; the existence of the shoal, therefore, must be considered very doubtful.

Kurrachee rock.—A small pinnacle rock, standing in 16 fathoms, and dries 5 feet at low-water spring tides, lies with the followings bearings and distances :—

Red point (on the mainland)	E. $\frac{1}{2}$ N., distant 4 $\frac{1}{2}$ miles.
Turret Island	S. E. by S., " 7 $\frac{1}{2}$ "
South point of the biggest island of The Gregorys	W. by N. $\frac{1}{2}$ N.,	" 1 $\frac{1}{2}$ "
South island of The Gregorys	S. W. $\frac{1}{2}$ W., " 2 $\frac{1}{2}$ "

Note.—A rock has been placed one mile N. N. E. of the above position, but it does not exist, and should be expunged from the Admiralty charts.

Directions—Western Channel.—The channel West of The Gregorys in Forrest's Strait is not recommended until a larger scale chart is published. *Eastern Channel*.—Mariners, when proceeding through, should keep in mid-channel between The Gregorys and the main land bearing in mind that Sir Robert Campbell's reef, which lies 3 $\frac{1}{2}$ miles South of Canister Island, covers at high-water; this track, therefore, leads through in 3 $\frac{1}{2}$ to 4 $\frac{1}{2}$ fathoms at low-water. It is high-water full and change at 10h. 39m., and the average rise of springs is 13 to 16 feet more than the above depth; and a vessel by keeping in soundings under 10 fathoms at any time of tide will be well clear of the *Kurrachee rock*.

The bearings are magnetic.

Deputy Conservator of the Port
and Offg. Port Officer of Calcutta.

COLMAN MACAULAY,
Offg. Chief Secy. to the Govt. of Bengal.

[Fourth Publication.]
NOTIFICATION.

The 31st December 1886.—It is hereby notified for general information that in the exercise of the powers conferred on him by section 4 of Act III (B.C.) of 1879 (entitled an Act to provide for the periodical inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah), the Lieutenant-Governor proposes to approve of the following draft of a revised set of rules framed by the Commissioners for the inspection of steam-boilers, unless good reasons are shown to the contrary within one month of the publication of this notification.

COLMAN MACAULAY,

Offg. Chief Secy. to the Govt. of Bengal.

Rules under Section 4, Act III (B.C.) of 1879, entitled an Act to provide for the Periodical Inspection of Steam-boilers and Prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah.

I.—The office of the Commissioners for the Inspection of Boilers shall be attached to the office of the Commissioner of Police.

II.—A Boiler Commission shall be appointed to consist of the Commissioner of Police, or the Deputy Commissioner of Police or both, and not less than three other Commissioners to be appointed by Government from time to time; and it shall meet periodically (at least once a month) to arrange for the transaction of business, and one of the Commissioners shall be appointed President.

III.—It shall be the duty of the Commissioners at the monthly meetings—

(1) To examine the diaries of the Inspector and Assistant Inspectors, and pass such orders thereon as may seem necessary.

(2) To revoke or suspend any certificates under section 8.

(3) To hear any appeals preferred by owners of boilers under section 9.

(4) To keep a record of their proceedings in such form as may seem advisable, and submit a copy of the same to the Secretary to Government.

(5) To submit an annual budget to Government, showing the estimates, receipts, and disbursements of the Commission for the ensuing year.

(6) To submit an annual report reviewing the work done by the Boiler establishment during the year.

(7) To prescribe the registers and accounts which are to be kept up by the Secretary and office.

(8) To cause a statement of demands, and outstandings to be prepared by the Secretary, and to scrutinise the same.

(9) To check the statement of demands, comparing the arrear demand with the statement of outstandings for the previous month, and the current demand with a statement of work done, to be prepared by the Secretary from the diaries of the Inspectors.

(10) To compare the statement of collections with the cash-book, and the cash-book with the Bank-book.

(11) To pass such orders as they may think fit for realising or otherwise disposing of the outstandings.

IV.—The Commissioners shall from time to time prepare and submit for the sanction of Government a schedule of the establishment and salaries they consider necessary for the purposes of this Act.

V.—After sanction of such schedule, the Commissioners shall have the power to appoint the Inspector, Assistant Inspectors and clerks, &c., and they shall also have power to suspend or remove such officers. The Inspector shall also be Secretary to the Commission, and he shall attend the office and keep such registers and accounts as the Commission may direct under rule III.

VI.—The Secretary shall be the head of the branch of the office of the Commissioner of Police, which is set apart for the work of the Boiler Commission, and shall be responsible to the Commissioner or Deputy Commissioner of Police for the good order and management of the office. He shall see that all notices are duly served, and that all fees are duly brought to account and paid into the Bank. He shall keep in his own custody all forms of certificates, declarations, check receipts, and vouchers. He shall himself verify the balance at credit, shown in the accounts of the Commissioners' office, with the balance in the Bank. He shall refer all matters of importance for the orders of the President.

VII.—Notices under section 6, requiring owners or persons in charge of boilers to make alterations or additions, shall only be given by the Inspector, and when any such notice is given, a copy of the notice served shall at the same time be forwarded by him to each member of the Boiler Commission. When an appeal is heard by the Commission, notice shall be given to the appellant, and any representation that may be made by him will be heard in the presence of the Inspector. The Inspector will also be heard, and local inspection made if necessary. The decision of the Commission will be given in writing, and such decision shall be final.

VIII.—When an inspection under the Act is completed, the Inspector making it shall forthwith, if satisfied that he can with propriety do so, give the owner, manager or agent of the steam boiler inspected a declaration in the form appended hereto.

IX.—The owner, manager or agent to whom a declaration is given under the last foregoing section shall, within fourteen days after the date of the receipt thereof, send the declaration, together with the amount of the fee named at foot thereof, to the office of the Commissioner of Police.

If he fails to do so, he shall forfeit a sum not exceeding five rupees for every day beyond that period, and the owner, manager or agent shall pay the sum so forfeited on the delivery of the certificate of inspection in addition to the fee payable for the certificate.

X.—Upon receipt of the declaration in the office of the Commissioner of Police, the Secretary shall prepare a certificate in the form prescribed by the Act. Such certificate shall be signed by the Secretary and the Commissioner of Police or Deputy Commissioner of Police, and

shall be delivered to the owner, manager or agent of the steam boilers inspected, on his paying the fees and other sums (if any) payable under rule IX on delivery of a certificate.

XI.—The declaration given shall have the effect of a certificate for 30 days from the date of inspection under rule VIII, but no longer; and unless the fees and other demands are paid and the certificate taken out within that period, the owner, manager or agent shall be liable to all the penalties prescribed in the Act for using an uncertificated boiler. Provided that, if the boiler is worked under a declaration for any period less than 30 days, the owner, manager, and agent shall nevertheless be liable to pay the same fee as if he had taken out a certificate.

XII.—For every certificate of inspection granted under this Act, the owner, manager or agent of the steam boiler inspected shall pay to the Commissioner of Police a fee calculated on the horse-power of the steam boiler according to the scale laid down in rule XVII; and such additional fee, in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XVIII.

XIII.—A certificate granted under this Act shall not be in force—

(1) After the expiration of one year from the date thereof, or

(2) After the expiration of the period, if less than one year, for which the boiler and machinery have been stated in the certificate to be sufficient, or

(3) After notice has been given by the Commissioners to the owner, manager or agent of the steam boiler to which the certificate relates that they have cancelled or suspended it.

XIV.—There shall be two kinds of inspection of boilers—

(a)—A thorough examination once every twelve months, inside and outside, to be made by the Inspector or Assistant Inspector in person, for which purpose the boilers must be empty, cool, and clean, and flues swept; and if required by the Inspector, any parts or settings

removed for a complete examination of the boiler in every part.

(b)—An ordinary inspection made at any time when the Inspector has reason to believe the boiler is being improperly worked or that the person in charge is not competent.

XV.—The Inspector shall give one week's notice of every such intended thorough examination; and if after that notice the boilers are not empty, cool, clean, and ready for inspection on the date named, the Inspector shall prohibit the boilers from working, and shall report the case to the Commissioners. Further, if any request be made to remove fittings or settings, and such be not complied with, the Inspector shall in like manner stop the working of the boilers.

XVI.—The Inspector shall submit to the Commissioners at each meeting his report on every boiler inspected in the form of a diary which shall be recorded in the office.

XVII.—Fees for the delivery of certificates shall be charged according to the following scale:—

	Rs.
Boilers under 10 H.-P. ...	16
„ above 10 „ and under 20 H.-P. ...	20
„ „ 20 „ „ 40 „ ...	25
„ „ 40 „ „ 60 „ ...	30
„ „ 60 „ „ 80 „ ...	35
„ „ 80 „ „ 100 „ ...	40
„ „ 100 „ and upwards ...	50

Formula for calculating horse-power.

For tubular and internally fired boilers, area of grate multiplied by two = H.-P.

For egg-ended and externally fired boilers, area of grate multiplied by one and a-half = H.-P.

XVIII.—In addition to the above fees a charge to cover the travelling expenses of the Inspector will be made in the case of all boilers or prime-movers situated outside the town of Calcutta. The charge for such inspection will be calculated according to the distance from Government House to the place where the boiler is situated and back again, and will be at the rate of six annas a mile by road and two annas a mile by rail.

NOTICE TO MARINERS—(No. 5).

BAY OF BENGAL.

BURMA COAST.

COAST OF ARAKAN.

(1) *Reported incorrect position of shoal southward of Sandoway Anchorage.*

THE Officer in charge of the Marine Survey of India has reported that the 4-fathom shoal lying 20 miles S. by W. of Sandoway anchorage is incorrectly placed on the published charts of that coast.

The shoal—which has a depth of only 10 feet over it at low-water spring tides, and composed of large stones—is reported as being distant $1\frac{1}{2}$ miles S. by E. $\frac{1}{2}$ E. of the position at present assigned.

Position—Latitude $18^{\circ} 14' N.$; longitude $94^{\circ} 03' 45'' E.$ (Madras observatory being in longitude $80^{\circ} 14' 51''$ East of Greenwich.)

Note.—Mariners should navigate this part of the coast with extreme caution.

RAMREE HARBOUR.

(2) *Beacon on Dragon shoal.*

Information has been received that a beacon has been erected to indicate the harbour entrance near the northern end of Dragon shoal, one cable N.N.E. of the large white rock, Ramree harbour.

This beacon—which consists of an iron tripod, carrying a drum and painted red—was intended to have been placed on Flat Reef, which is a large bank of boulders separated from the Dragon shoal by deep water.

Note.—Further notice will be given when the beacon is shifted to its right position.

CHEDUBA STRAIT.

(3) *Buoys and beacons off North side of Cheduba Island.*

Also, with reference to this Department Notice to Mariners, No. 58, of 21st October 1886, on the breaking adrift of the Central Shoal buoy, northern approach to the Cheduba Strait:—

Further notice has been given that the buoy painted red, and surmounted with a staff and basket, has been replaced on the northern edge of the Central Shoal, North side of the Fairway, in 3 fathoms at low-water spring tides, and lies with the following bearings and distances:—

Rocky Point beacon	...	N. W. distant $3\frac{1}{2}$ miles.
Dark hill (wooded)	...	N. $\frac{1}{2}$ E. „ $2\frac{1}{2}$ „
Old beacon (on next point)	...	N. E. $\frac{1}{2}$ N. „ 1 mile (nearly.)

As a guide to vessels approaching the Cheduba Strait from the northward, and in order to distinguish *Beacon island* from the other islands, a *small beacon* has been erected on the summit off the East end of Beacon island, N. W. side of Cheduba island.

Note.—Steam-ships approaching from the northward may steer direct for the Central Shoal buoy on a bearing E. $\frac{3}{4}$ S. in line with the highest summit of the Ramree hills, then pass 2 cables to the South of it, and keep it just open of Rocky point until the leading mark for hauling to the southward comes on, viz., the Dark wooded hill bearing N. N. W. $\frac{1}{4}$ W.

The *beacons*, on Rocky point and on the West side of the next point to the eastward, are 30 feet high, constructed of *poles* with *baskets*, and are painted *white*.

The bearings are magnetic.

Directions of the Tidal Streams.

Information has been received from the Officer in charge of the Marine Survey of India that from observations taken on board the Indian Marine Surveying steamer *Investigator* in January 1887, on a line between the China Ba-keer light-house and Kalegouk island, the direction of the streams were found to be always to or from the centre of the Salwin or Maulmain river, there being no circular set. At springs there was a slack water of half an hour corresponding in time to the high and low water times at Amherst (entrance to Maulmain river—see tide tables), and the maximum current, flood or ebb, was $3\frac{1}{4}$ knots, which is probably exceeded in the wet season.

MERGUI ARCHIPELAGO.

Dangerous rocks on the beaten track.

THE Officer in charge of the Marine Survey of India has given notice in reference to searches having been made of the position and existence of the undermentioned rocks lying in the fairway track through the Mergui Archipelago:—

Peterson rock.—This rock, which dries at low-water spring tides, is described as a pinnacle, lying one mile N. W. of West Passage Island on the N. E. side of Lord William Bentinck Island.

Warning rock.—Is situated in the same locality, but a little to the northward of Lord William Bentinck Island, and was found to lie half a mile East of its charted position; there being no dangers off the East side of West Passage Island.

Fly rock.—A very dangerous rocky pinnacle about 30 feet in extent, with perpendicular sides, is awash at low-water spring tides; but it seldom makes any ripple in the fine season. It lies with the following bearings and distances:—

West extreme of Bushby Island South, distant 6 miles.
S. E. point of Lord William Bentinck Island ...	N. $\frac{1}{2}$ W., " 7 $\frac{1}{2}$ "
Fly islet (40 feet high, small) S. E. by E., " 2 $\frac{1}{4}$ "

Note.—To clear this danger, Mariners are cautioned to keep the S. E. point of Lord William Bentinck Island touching the West side of South Passage Island (East side of Lord William Bentinck Island), which line leads one mile West of it; or keep the Father and Son (West side of Sir Edward Owen's Island), showing to westward of the conical rock immediately off Bushby Island; or especially during thick weather the whole of the conical rock properly open of Bushby Island, will clear the *Fly rock* by half a mile to westward.

A shoal off High Island.—The shoal reported three miles N. N. E. of High island (N. E. side of Sullivan's Island or Lampee) was not found; depths of 20 fathoms were obtained everywhere for a mile round the position assigned, and overfalls and tide-rips being numerous North of High Island.

A rock.—This danger, which is situated in the East side of the Forrest's Strait, and dries at low-water spring tides, lies a quarter of a mile North of Canister rock.

Marble rock.—Reported to exist 2 $\frac{1}{2}$ miles N. N. W. $\frac{1}{4}$ W. from the northern island of The Gregorys Group, was searched for in vain, although drags were used extensively over the vicinity. A coral patch, with the least depth of one fathom at low-water spring tides, was, however, found 1 $\frac{1}{2}$ miles N. $\frac{1}{2}$ E. of the northern island of The Gregorys, and which is considered probably to be the same danger.

Boyce shoal.—An unsuccessful search was made for the reported danger stated to lie about 2 miles East of the main body of The Gregorys; the existence of the shoal, therefore, must be considered very doubtful.

Kurrachee rock.—A small pinnacle rock, standing in 16 fathoms, and dries 5 feet at low-water spring tides, lies with the followings bearings and distances:—

Red point (on the mainland) E. $\frac{1}{2}$ N., distant 4 $\frac{1}{4}$ miles.
Turret Island S. E. by S., " 7 $\frac{1}{4}$ "
South point of the biggest island of The Gregorys ...	W. by N. $\frac{1}{2}$ N., " 1 $\frac{3}{4}$ "
South island of The Gregorys S. W. $\frac{1}{4}$ W., " 2 $\frac{3}{4}$ "

Note.—A rock has been placed one mile N. N. E. of the above position, but it does not exist, and should be expunged from the Admiralty charts.

Directions—Western Channel.—The channel West of The Gregorys in Forrest's Strait is not recommended until a larger scale chart is published. *Eastern Channel.*—Mariners, when proceeding through, should keep in mid-channel between The Gregorys and the main land bearing in mind that Sir Robert Campbell's reef, which lies 3 $\frac{1}{2}$ miles South of Canister Island, covers at high-water; this track, therefore, leads through in 3 $\frac{1}{2}$ to 4 $\frac{1}{2}$ fathoms at low-water. It is high-water full and change at 10h. 39m., and the average rise of springs is 13 to 16 feet more than the above depth; and a vessel by keeping in soundings under 10 fathoms at any time of tide will be well clear of the *Kurrachee rock*.

The bearings are magnetic.

Deputy Conservator of the Port
and Offg. Port Officer of Calcutta.

NOTICE TO MARINERS—(No. 5).

BAY OF BENGAL.

BURMA COAST.

COAST OF ARAKAN.

(1) *Reported incorrect position of shoal southward of Sandoway Anchorage.*

THE Officer in charge of the Marine Survey of India has reported that the 4-fathom shoal lying 20 miles S. by W. of Sandoway anchorage is incorrectly placed on the published charts of that coast.

The shoal—which has a depth of only 10 feet over it at low-water spring tides, and composed of large stones—is reported as being distant $1\frac{1}{2}$ miles S. by E. $\frac{1}{2}$ E. of the position at present assigned.

Position—Latitude $18^{\circ} 14' N.$; longitude $94^{\circ} 03' 45'' E.$ (Madras observatory being in longitude $86^{\circ} 14' 51''$ East of Greenwich.)

Note.—Mariners should navigate this part of the coast with extreme caution.

RAMREE HARBOUR.

(2) *Beacon on Dragon shoal.*

Information has been received that a beacon has been erected to indicate the harbour entrance near the northern end of Dragon shoal, one cable N.N.E. of the large white rock, Ramree harbour.

This beacon—which consists of an iron tripod, carrying a drum and painted red—was intended to have been placed on Flat Reef, which is a large bank of boulders separated from the Dragon shoal by deep water.

Note.—Further notice will be given when the beacon is shifted to its right position.

CHEDUBA STRAIT.

(3) *Buoys and beacons off North side of Cheduba Island.*

Also, with reference to this Department Notice to Mariners, No. 58, of 21st October 1886, on the breaking adrift of the Central Shoal buoy, northern approach to the Cheduba Strait:—

Further notice has been given that the buoy painted red, and surmounted with a staff and basket, has been replaced on the northern edge of the Central Shoal, North side of the Fairway, in 3 fathoms at low-water spring tides, and lies with the following bearings and distances:—

Rocky Point beacon	...	N. W. distant $3\frac{1}{2}$ miles.
Dark hill (wooded)	...	N. $\frac{1}{2}$ E. „ $2\frac{1}{2}$ „
Old beacon (on next point)	...	N. E. $\frac{1}{2}$ N. „ 1 mile (nearly.)

As a guide to vessels approaching the Cheduba Strait from the northward, and in order to distinguish *Beacon island* from the other islands, a *small beacon* has been erected on the summit off the East end of Beacon island, N. W. side of Cheduba island.

Note.—Steam-ships approaching from the northward may steer direct for the Central Shoal buoy on a bearing E. $\frac{1}{2}$ S. in line with the highest summit of the Ramree hills, then pass 2 cables to the South of it, and keep it just open of Rocky point until the leading mark for hauling to the southward comes on, viz., the Dark wooded hill bearing N. N. W. $\frac{1}{4}$ W.

The *beacons*, on Rocky point and on the West side of the next point to the eastward, are 30 feet high, constructed of *poles* with *baskets*, and are painted *white*.

The bearings are magnetic.

Directions of the Tidal Streams.

Information has been received from the Officer in charge of the Marine Survey of India that from observations taken on board the Indian Marine Surveying steamer *Investigator* in January 1887, on a line between the China Ba-keer light-house and Kalegouk island, the direction of the streams were found to be always to or from the centre of the Salwin or Maulmain river, there being no circular set. At springs there was a slack water of half an hour corresponding in time to the high and low water times at Amherst (entrance to Maulmain river—see tide tables), and the maximum current, flood or ebb, was $3\frac{1}{2}$ knots, which is probably exceeded in the wet season.

COLMAN MACAULAY,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st February 1887.—The following Order in Council is published for general information.

R. H. WILSON,

Offg. Secy. to the Govt. of Bengal.

No. 18.

AT THE COURT AT WINDSOR.

The 26th day of November 1886.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY.

LORD PRESIDENT.

VISCOUNT CROSS.

EARL OF ROSSLYN.

LORD STANLEY OF PRESTON.

WHEREAS by the Merchant Shipping Act, 1876, it is enacted that when the Legislature of any British Possession provides for the survey of and grant of certificates for passenger steamers, and the Board of Trade report to Her Majesty that they are satisfied that the certificates are to the like effect, and are granted after a like survey, and in such manner as to be equally efficient with the certificates granted for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, it shall be lawful for Her Majesty by Order of Council:—

1. To declare that the said certificates shall be of the same force as if they had been granted under the said Acts; and
2. To declare that all or any of the provisions of the said Acts which relate to certificates granted for passenger steamers under those Acts shall either without modification, or with such modifications as to Her Majesty may seem necessary, apply to the certificates referred to in the Order; and
3. To impose such conditions and to make such regulations with respect to the said certificates, and to the use, delivery, and cancellation thereof, as to Her Majesty may seem fit, and to impose penalties not exceeding forty pounds for the breach of such conditions and regulations:

And whereas the Legislature of the British Possession of New Zealand has provided for the survey of and grant of certificates for passenger steamers:

And whereas the Board of Trade have reported to Her Majesty that they are satisfied that such certificates are to the like effect, and are granted after a like survey, and in such manner as to be equally efficient with the certificates granted for the same purpose in the United Kingdom, under the Acts relating to Merchant Shipping:

Now, THEREFORE, Her Majesty is hereby pleased, by and with the advice of Her Privy Council—

1. To declare that the certificates granted under the said provision by the Legislature of the British Possession of New Zealand for passenger steamers shall be of the same force as if they had been granted for the same purpose in the United Kingdom under the said Acts relating to Merchant Shipping, provided the surveys of the vessels are conducted in accordance with such regulations as shall be annually approved by the Board of Trade.
2. To declare that all the provisions of the said Acts which relate to certificates granted for passenger steamers under those Acts shall, without modification, except as hereinafter mentioned, apply to the certificates referred to in this Order.
3. To declare that it shall not be lawful for a passenger steamer to which this Order relates to proceed to sea with passengers on board from any port or place in the United Kingdom on any voyage other than one to the said Possession of New Zealand, or to any intermediate place or places situate on such voyage.
4. To declare that if any passenger steamer to which this Order relates goes to sea from any place in the United Kingdom with any passengers on board upon any voyage other than a voyage to the said Possession of New Zealand, or any intermediate place or places as aforesaid, the owner thereof shall for every such offence incur a penalty not exceeding fifty pounds, and such penalty is hereby imposed accordingly.

NOTIFICATION.

The 22nd February 1887.—In supersession of the notification, dated the 10th September 1884, published at page 955, Part I of the *Calcutta Gazette* of the 17th September 1884, and the notification dated the 14th November 1885, published at page 1094, Part I of the *Calcutta Gazette* of the 18th November 1885, the Lieutenant-Governor of Bengal is pleased to promulgate the following amended regulations concerning the supply, within the territories under the Lieutenant-Governor of Bengal, of lime or lemon-juice or other antiscorbutics for the use of ships in accordance with the provisions of section 6 of the Merchant Shipping Act of 1867 :—

1. No lime or lemon-juice shall be deemed fit and proper to be taken on board any ship for the use of the crew or passengers thereof, unless the same is shown by certificate under the hand of an Inspector, appointed by the Local Government, to be proper for use on

board such ship, such certificate to be given upon inspection of a sample, but no such certificate to be given until it be shown to the satisfaction of such Inspector that the juice contains not less than 35 grains of citric acid to the fluid ounce; nor unless the same contains 15 per centum of proper and palatable proof spirits (except in the cases mentioned in Rule 2 below) to be approved by such Inspector, or by the proper officer of Customs, and to be added before or immediately after the inspection thereof; nor unless the same is packed in such bottles, at such time, and in such manner, and is labelled in such manner as the Inspector or the Collector of Customs may direct, provided that when any such lime or lemon-juice is deposited in any bonded warehouse, and has been approved, as aforesaid, by the said Inspector, the said spirits, or so much of the said spirits as is necessary to make up 15 per centum, may be added in such warehouse, without payment of any duty thereon; and when any spirit has been added to any lime or lemon-juice, and the same has been labelled as aforesaid, it shall be deposited in the warehouse for delivery as ships' stores, only upon such terms and subject to such provisions of the Customs Act as are applicable to the delivery of ships' stores from a bonded warehouse.

2. In the case of foreign-going ships carrying Asiatics, non-alcoholic lime-juice, *i.e.*, lime-juice preserved without spirit, may be deemed to be fit and proper; provided that the non-alcoholic juice shall not be deemed to be fit and proper to be taken on board any ship for the use of the Asiatic members of the crew or passengers thereof, unless the same is shown by certificate under the hand of an Inspector, appointed by the Local Government, to be proper for use on board such ship, such certificate to be given upon inspection of a sample, but no such certificate to be given until it be shown to the satisfaction of such Inspector that the juice contains not less than 25 grains of citric acid to the fluid ounce; nor unless the same is packed in such bottles, at such time, and in such manner and is labelled in such manner as the Inspector or the Collector of Customs may direct. No non-alcoholic lime-juice, other than the manufacture of such firms as may from time to time be approved for this purpose by the Government of Bengal, shall be passed by the Inspector without the sanction of Government previously obtained.

3. In the event of a master of a ship being desirous of landing lime-juice in store for the purpose of being rectified or rendered fit for the use of the crew or passengers on board such vessel, he shall enter the same at the Custom House, to be landed for rectification, under the usual form of engagement, to be re-shipped after such lime or lemon-juice shall have been properly certified and rectified to by the Inspector, under the same rules and regulations as in the case of lime or lemon-juice shipped direct from a warehouse.

4. When any lime-juice has been taken from a warehouse as ships' stores, the label shall remain intact until twenty-four hours at least after the ship shall have left her port of departure on her foreign voyage.
